

Mitsubishi-Hitachi Metals Machinery, Inc.

2005/8/19

Messrs;

Line:

Start-up year: 1986 年, 1989 年

Years after start-up: 18years, 15years

Type of HYROP: H-04E

Roll Load System (HYROP-F)

Notification of Deadline of the Maintenance Period of HYROP Panel (H-04E type)

We would like to thank you for continuous cooperation.

Today, we have to notify that the program controller has been discontinued manufacturing in 1997 and the deadline for the maintenance is near at hand in 2007.

(Refer to attached sheet.)

Since we might be not able to supply the spare parts of its important parts, such as control units, even if they will be damaged or broken, we would ask you to renew it to its latest type.

We appreciate your understanding and cooperation.

Sincerely yours,

Mitsubishi-Hitachi Metals Machinery Inc.
